

WHAT PEOPLE ARE SAYING ABOUT AMERICA'S FOCUS ACT

"All leaders in the youth development field applaud Congressman Fattah's longtime commitment to strengthening America's future competitiveness by investing in critical education initiatives today. STEM education, coupled with youth mentoring, will make a dramatic impact in preparing today's youth to enter the fields of science, technology and engineering, where unfortunately America is lagging behind many other nations. Twenty years from now the return on this investment will reflect the wisdom of the FOCUS Act and its visionary proponents."

- Jim Clark, President and CEO, Boys & Girls Clubs of America (BGCA)

"The National Association of Counties (NACo) today applauded introduction of revenue-neutral legislation that would provide additional resources for three existing and effective federal grant programs.
